RECEIVED

JUN 10 2002

TECH CENTER 1600/2900

Response to Office CommunicationAssistant Commissioner for Patents  
Washington, D.C. 20231

Dear Sir:

In the Office communication mailed on April 22, 2002, the Examiner indicates that the Reply filed on 01/30/02 (Paper No. 7) is not fully responsive to the prior Office Action. The Examiner asserts that Applicants' election of "the composition claims 1-10" is not a proper election because it does not correspond to a single invention set forth in the prior Office action.

In response, Applicants elect the invention CXCLX which drawn to a composition comprising IFN- $\alpha$  and IFN- $\beta$ , classified in class 530, subclass 350 (p. 24 of Office action dated Dec. 17, 2001).

In addition, Applicants would like to bring to the attention of the Examiner that Applicants had requested the cancellation of claims 3-8 in the Reply filed on 01/30/02. The cancellation was not highlighted in the Amendment section but was discussed in the Remark section. After entry of the amendments, claims 1-2, 25-29 are pending and under consideration.

No fees are believed due with this communication. However, the Commissioner is hereby authorized and requested to charge any deficiency in fees herein to Deposit Account No. 50-2207.

Respectfully submitted,

C. Amy Ng Smith
